Subject: Microsoft Settlement

My name is:

Brad Smith
1031 W Second Ave
Columbus, OH

For reasons extensive and significant, I think the settlement is a poor idea. Chiefly, I strongly believe that MS has been the principle force behind stunting of innovation and competition for the past 15+ years. Not only does the current settlement not recognize that, but places them in a position to extend this reign.

Please side against the settlement.

Brad Smith
